to get install video

Align the vertical prop system with the holes on the deskboard.Tighten the screws to connect the vertical prop system and deskboard.
⚠ Put the spacer under the screws before tighthening them, as shown in left figure.

Tighten the screws to fasten lifting rod.

⚠ When installing the clip of lifting rod, please notice the inclined end faces outwards, otherwise it will cause difficulty in lifting.
To install four aluminum feet with wheels, tighten the screws to fasten it with the vertical prop.

Unlock

Lock

⚠ If you feel the feet not stable or need to elevate the feet height,you can adjust the screw nut as picture.

❶ Lower nut: Loose it to adjust the height.

❷ Upper nut: After adjusted the height, please tighten the upper nut.

760 ~ 1165mm

⚠ Press and hold the lifting rod to raise or lower deskboard.
